

Vehicle Safety Inspection, Maintenance and Use

The executive director shall be responsible for a safety inspection program for BOCES vehicles. The executive director or designee shall be responsible for the supervision of all BOCES transportation personnel, operation and maintenance of BOCES vehicles, and coordination of an appropriate safety program.

As necessary, the executive director shall establish guidelines governing staff use of BOCES vehicles and use of private vehicles for BOCES business. Such guidelines shall address safety issues, expense reimbursement, program needs and other appropriate factors.

(Adoption Date: September 10, 2014)
